Beaded Mandala

Print off the design below and transfer onto your chosen fabric. To do this you can trace the design, use the prick and pounce method, a Hot-iron transfer pen or carbon transfer paper. Go over the paper design with a black pen first if you can't see it clearly.

Place a backing fabric behind your embroidery fabric to give you a more stable ground to work on and frame both pieces together in your chosen embroidery hoop.

Design for transfer

(Small and large, I used the small one in the video)
